

Application for Support

The Perfect Game Foundation mission is to provide assistance to those who want to follow a business career path in baseball through the development of a system of opportunities, funding, guidance and mentorship.

The Perfect Game Foundation is committed to diversity in the administration of its programs and encourages applicants to apply, regardless of gender, ethnicity, race, creed or the like, if they meet the Foundation's needs-based, eligibility criteria and have a demonstrable interest in considering pursuit of a baseball-connected career.

A part of this assistance is The Perfect Game Foundation Scholarship Program which offers financial assistance for applicants participating in approved internship projects and approved courses of graduate level study.

Support will be given to diverse candidates who have been accepted into an approved Internship and need financial support; candidates who have not been accepted into an Internship program but would like to participate in one; candidates who have been accepted into a graduate level program of study or have applied to one and have not yet been accepted.

1. General Information

Name:

Address:

Email:
